NEWS AND TIPS FROM VFF PENSION

SEPTEMBER 2021

CONNY COMMENTS

Increased bonus rates and good returns

2021 continues positively with good returns and higher bonus interest rates.

From 1 September, we have raised the bonus rate to 6% for Volvo Företagspension and 10% for our other products. This is the third time this year that we have been able to raise the bonus rate, which feels great.

The return up to and including the end of August 2021 was 8.1% and our consolidation level was a stable 121%.

In addition to a good return, 2021 has been positive in many ways. Despite the current pandemic, we have been able to conduct our business without any negative impact on our insured / members.

During the summer, we moved to new premises and hired 3 new employees. We are cautiously positive about the development of the Covid-19 situation in the country.

With that said, I hope that we can soon meet for real again, both employees, partners and insured / members!

Occupational pension day 27 September !

It's time again! On September 27 an extra spotlight will shine on occupational pensions.

As an employee of Volvo or a former Volvo company, you have, in addition to your regular ITP or SAFLO occupational pension an extra occupational pension – Volvo Företagspension. Volvo Företagspension is managed by us at VFF Pension and we hope that it will give you a welcome supplement once you retire.

Your employer makes regular payments to this pension. If you want to increase your payments into this insurance, you can convert your time-bank hours into Volvo Företagspension premiums via your time-reporting system.
