NEWS AND TIPS FROM VFF PENSION / SEPT 17

## MARIE COMMENTS

### Positive key indicators and unchanged high bonus rate

The return for the first six months of 2017 slightly exceeded 3 %, and this good return together with higher interest rates contributed to improved solvency. All the asset categories made a positive contribution, and it was primarily the Swedish stocks that developed most.

Read more about the first half year in the Interim Report for 2017, which is now available on our website.

This summer saw a reduction in both Swedish and overseas stocks and as a result the return to end August dropped by about 1 %. However, VFF Pension's strong key indicators allow us to maintain our bonus rate at a high rate of 12 % for our PLUSpension and 6 % for our occupational pensions.

## Welcome to our new website!

As some people may have noticed, we have renewed our website. In conjunction with the fresh modern website we also took the opportunity to create a comprehensive English version. Among the new features, there is a choice of log-in modes for Policyholder, Pensioner or Employer to make it easier to access appropriate information. We hope you will appreciate our new website, and we'll be really happy to receive any input you may have on how we can improve it still further – just send an email with your ideas to [vff@volvo.com](mailto:vff@volvo.com)!

## We're changing our name to VFF Pension

Volvoresultats Försäkringsförening is changing its name to VFF Pension Försäkringsförening. VFF Pension has been used for several years in communication with our policyholders and insured parties. Now we are going one step further and also changing our legal name. Our business organisation number remains the same as before, and of course the change of name has no impact on our operation.

### A TIP FROM CONNY

## Occupational Pension Day 27 September

It's soon that time again! On 27 September the spotlight will focus that little bit more strongly on occupational pensions. As an employee of Volvo or a former Volvo company, in addition to your regular ITP or SAFLO occupational pension you also have an extra occupational pension, Volvo Företagspension. Volvo Företagspension is administrated by us at VFF Pension and we hope this will provide a welcome supplement to your pension when that time arrives. If you want to increase the amount you pay into your pension fund, note that it is possible to convert time-bank hours into your Volvo Företagspension via the time-reporting system.
